ESSARGHINI AYOUB

Software Engineer

a.essarghiniy@gmail.com | LinkedIn: ayoub-es-sarghini | GitHub: ayoub-essarghini | +212 681 406 518

TECHNICAL SKILLS

- **Languages:** Java, JavaScript (ES6+), TypeScript, PHP, Python, C, C++, SQL, Dart, Kotlin.
- **Frontend:** Angular 16+, React, Next.js, VueJs, React Native, Tailwind CSS, Bootstrap, HTML5/CSS3.
- **Backend:** Spring Boot, Node.js (NestJS, Express, Fastify), Laravel, Django.
- **Databases & Cloud:** MySQL, PostgreSQL, MongoDB, Firebase,Supabase, Docker, Nginx, AWS (Basic).
- **DevOps & Tools:** Git, CI/CD (Jenkins, GitHub Actions), Postman, Swagger, Linux, Jest.

PROFESSIONAL EXPERIENCE

Front End Engineer (Part-time) Sep 2025 – Present
Vast-Security *Remote*

- Engineered responsive Single Page Applications (SPAs) using **Angular 16+**, translating Figma wireframes into pixel-perfect interfaces.
- Developed a reusable component library, ensuring design consistency across security dashboards and reducing dev time by 30%.
- Optimized state management using **RxJS** and **NgRx** to handle real-time data visualization for security monitoring.

Software Engineer (Freelance) Mar 2023 – Present
La Maison Marocaine du Livre *Morocco*

- Engineered a high-performance e-commerce ecosystem using **Laravel** and **React Native**, implementing **Redis caching** and **MySQL indexing** to optimize API response times.
- Designed a robust RESTful architecture with **JWT authentication** and asynchronous job queues for order processing, deployed on a **Linux VPS** using **Docker** containers.

Mobile Developer (Freelance) Jun 2022 – Present
Self-Employed *Remote*

- Developed native and cross-platform Android apps using **Java, Kotlin,** and **React Native**.
- Built backend infrastructure with **Laravel/MySQL** to handle RESTful APIs, push notifications, and real-time data sync.
- Managed full app lifecycles as a **Google Play Publisher**, overseeing ASO and production deployments.

Full Stack Intern Jun 2021 – Sep 2021
Gega Manager *Morocco*

- Built internal management tools using **Laravel** and **MySQL**, optimizing database queries for reporting features.

KEY PROJECTS

Lawyer Office Management SaaS | *Django, Next.js, PostgreSQL*

- Built a multi-tenant SaaS for case management, integrating JWT authentication and automated court session reporting.

WanderWise – Tourism Platform | *Spring Boot, Angular, PostrgeSQL*

- Designed a modular **microservices backend** to handle complex business logic for Moroccan travel bookings, ensuring fault tolerance and high availability.

RobotoJS – Lightweight Framework | *JavaScript, TypeScript*

- Engineered a custom frontend framework featuring virtual DOM rendering and component-based architecture (similar to React).

AI Image Generator | *Next.js, OpenAI API, Firebase*

- Created a SaaS tool for generating images via DALL-E, handling user credits and session management via MongoDB.

EDUCATION

Software Architect Student 2023 – 2025
1337 Coding School (UM6P) *Morocco*
Focus: Low-level algorithms, System Administration, DevOps, and Full-stack Architecture.

Specialized Technician in Digital Development 2021 – 2023
OFPPT *Morocco*

LANGUAGES

English (Professional), **French** (Working Proficiency), **Arabic** (Native)
